

CERTIFICATE OF VISION

(ORS 807.090)

DEPARTMENT OF TRANSPORTATION
DRIVER AND MOTOR VEHICLE SERVICES
1905 LANA AVE NE, SALEM OREGON 97314

The medical information in this report is confidential and will be used by the Driver and Motor Vehicle Services (DMV) only to determine the qualifications of the person to operate motor vehicles.

INSTRUCTIONS TO APPLICANT:

1. Take this certificate to the licensed vision specialist of your choice and have a vision examination.
2. After the vision specialist conducts the examination, dispenses new prescription lenses if necessary, and completes the certificate:
 - Return completed form to a local DMV office.
 - FAX (503) 945-5329 or mail completed form to DMV Driver Safety Unit, 1905 Lana Ave NE, Salem, OR 97314.
 - For Valid With Previous Photo License, return completed vision form along with your application in enclosed envelope.

NOTE ▶ Failure to comply with this requirement may result in suspension of your driving privileges.

STANDARD FOR VISION SPECIALISTS

(ophthalmologist, oculist or optometrist)

OAR 735-062-0050

Eyesight Check Content and Standards

(1) The Driver and Motor Vehicle Services Division of the Department of Transportation (DMV) shall check the following items when testing the eyesight of applicants for a driver permit or driver license:

(a) Acuity; and

(b) Field of vision.

(2) To qualify for driving privileges, a person must meet the following eyesight standards:

(a) **Acuity:** The person must have a visual acuity level of 20/70 or better when looking through both eyes (or one eye if the person has usable vision in only one eye). A person with usable vision in both eyes will meet the standard if the visual acuity level in one eye is worse than 20/70 so long as the visual acuity level in the other eye is 20/70 or better;

(b) **Field of vision:** The person must have a field of vision of 110 degrees; and

(c) **Daylight driving only:** DMV will restrict the person's driving privileges to daylight driving only if the person's best eye is worse than 20/40 and no worse than 20/70 unless, in the written opinion of a licensed vision specialist (ophthalmologist, oculist, or optometrist), the person's driving should not be restricted. DMV will not restrict a person whose vision is 20/40 or better to daylight driving only unless, in the written opinion of a licensed vision specialist, such restriction is warranted.

(3) A person may meet the eyesight standards with the use of a corrective lens or lenses. When a person must use a corrective lens or corrective lenses to meet the eyesight standards, DMV will restrict the person to driving only when wearing corrective lenses.

(4) DMV may authorize a person to use a bioptic telescopic lens on a corrective lens, as defined in OAR 735-062-0310(1) if, when looking through the carrier lens and not the telescopic device, the person meets the eyesight standards set forth in section (2) of this rule.
