DUII CONVICTIONS

SUSPENSIONS, HARDSHIP PERMITS, AND REINSTATEMENTS

Every year in Oregon approximately 25,000 people are arrested for DUII. 40% of all traffic deaths are a direct result of people driving under the influence of alcohol or some other intoxicating substance. Driving under the influence of intoxicants is a crime, a deadly choice and a fully preventable tragedy. Report anyone driving impaired by calling 1-800-24DRUNK or 911.

DRIVE SOBER, SAVE LIVES

IMPLIED CONSENT SUSPENSIONS, HARDSHIP PERMITS, AND REINSTATEMENTS

Implied consent suspensions are DMV administrative actions separate from any action or requirements imposed by a court. A person may be suspended for the same offense under the Implied Consent Law, the DUII laws (see reverse side), or both. These suspensions are separate and independent actions.

SUSPENSION REASON

Breath or blood test failure	→	90 Days
Breath or blood test failure — Increased	→	One Year
Refusal of breath, blood or urine test	→	One Year
Refusal of breath, blood or urine test — Increased	→	Three Years

Suspension lengths are 'increased' if any of the following occurred within five years prior to this arrest: DUII conviction in Oregon or any other jurisdiction; participation in a diversion or similar alcohol or drug program in Oregon or any other jurisdiction; or a suspension of driving privileges under the Oregon Implied Consent Law.

Suspensions for breath test refusal or failure take effect on the 30th day following the arrest.

A court may impose a fine of at least \$500 and up to \$1,000 if the person refuses to submit to a breath or urine test. This is separate from any other court fine resulting from the DUII arrest.

A person may be asked to submit to a urine test if the person was involved in an accident resulting in injury or property damage or the person submitted to a breath test and the result was less than .08%. If there is no other implied consent suspension issued or in effect, a suspension for refusing to submit to a urine test will begin on the 30th day following arrest. Otherwise, a suspension for refusing to submit to a urine test will be consecutive to any other implied consent suspension, including any implied consent suspension resulting from the same arrest.

A person may be asked to submit to a blood test immediately after a motor vehicle accident while receiving medical care in a health care facility. A blood test refusal suspension takes effect on the 30th day following the persons arrest for DUII. A blood test failure suspension begins on the 60th day after the date the form is received at DMV.

If a person holds a Commercial Driver License (CDL) and refused to submit to an Implied Consent test, the person is also subject to a 3-year or lifetime commercial suspension, whether or not the person was operating a commercial motor vehicle at the time of arrest.
