This estimated mileage chart is created in compliance with the IRP agreement and is based on the total actual miles all Oregon apportioned vehicles operated. The result is the average mileage that an Oregon-based vehicle operates in a year.

Use this chart when a carrier is:

- Opening a new fleet
- Expanding operations by setting up a new fleet
- Renewing the fleet and had no actual mileage
- Adding jurisdictions to an existing fleet

*When using estimated miles from this chart, multiply mileage figures by the number of vehicles being added or renewed.*
